

The BCO is initiating the **Know Your Neighbors! Bowmanville Block Club program**. This is an opportunity for our great community to improve its communication by building a sense of community on our blocks one by one. Individuals are currently being invited to assume the responsibility of “Block Captain” for their respective block to aid in the ongoing communication and neighborhood watch in our growing community.

Your Block Captain is visiting each household on the block to collect basic contact information for neighbors. The goal is to bring neighbors together on both social and safety levels while enhancing our already family-friendly community.

If you are interested in receiving community related information and simply staying in touch with what is happening on your block and in Bowmanville please provide any or all of the information below. Bowmanville is a wonderful community filled with amazing people. We can help make our community even better by getting to know each other. Most importantly, we know some people may need help from time to time and, as a community, we can help ensure each other’s safety and wellbeing.

Contact information collected will be maintained solely by the block captains (not by the BCO) and used for communication amongst your block only. You are under no obligation whatsoever to provide any information. We look forward to getting to know you better!

First and Last Name	
Address
